WELL MOLDINGS

No other chrome molding is so well protected... and looks so great!

Trim-Gard has changed the rules for automotive after-market moldings! Our line of top-capped O.E. style moldings provides a choice you've never had before. We've capped our chrome with a thick, tough, layer of crystal clear vinyl, giving 20 times more protection to the chrome finish, making these moldings more durable than ever and actually improving the look of the chrome by imparting a deep rich glow, not possible before.
